

GUJARAT MEDICAL EDUCATION AND RESEARCH SOCIETY
MEDICAL COLLEGE AND GENERAL HOSPITAL GOTRI, VADODARA
HEALTH AND FAMILY WELFARE DEPARTMENT
GOVERNMENT OF GUJARAT

LETTER OF APPRECIATION

We, the GMERS Medical College and General Hospital, formed by the Gujarat Medical Education and Research Society, a NOT-FOR-PROFIT institution, have been established in the year 2010 and functioning under able guidance and umbrella ship of Govt. of Gujarat, through its Health and Family welfare Department.

General Medicine, Pediatrics, Psychiatry, TB& Chest, Skin & VD, General Surgery, Orthopedics, ENT, Obstetrics, Gynecology & Dentistry are some of the areas that are covered under our Clinical service at the Hospital. In Addition to this, we also have specific ailment related Centers like Diabetic Clinic, Geriatric Clinic, Cancer Detection Center, ART Center, ICTC, H1N1 influenza care Center for the benefit of patients with specific ailments. Similarly, our Investigation Services encompass services related to Radiology, Ultra-sonography, Echo-cardiography, TMT, Pathology (incl. Histo-pathology), Biochemistry & Microbiology, which also includes Culture sensitivity Test.

In the pursuit of our noble goal, we have been successful in receiving services of **HARI OM SEVA TRUST** since last four years. Hari Om Seva Trust is also rendering yeoman's service in Shree Sayaji General Hospital, Vadodara, since last 16 year and has earned high reputation. The Trust is responsibly looking after the welfare of the poorest among the poor, who, because of forces beyond their control, are forced to come to the Hospital due to one physical ailment or another. In most of the cases, it is their financial constrain that adds insult to their injury and they really do not know what to do! This is when the Trust intervenes and provides them with all kind of assistance, including subsidizing or altogether paying for their bills related to investigation, hospitalization, treatment, medicines and various expenses. We have learnt that the Trust is also helping the needy patients in other speciality hospital for organ transplants/replacement etc., on receipt of specific information/recommendations from the Doctor's Fraternity.

In view of this, we have facilitated presence of the Trust volunteers within our premises where, at least four (4) of them can be seen liasoning with Doctors, Technicians and Administrative personnel etc. on their behalf.

We are extremely satisfied with HARI OM SEVA TRUST and are amazed by the patience with which their volunteers run around and network with the various agencies/ faculties, with extreme politeness and efficiency. We, hereby, acknowledge their contribution to the Hospital, particularly in relation to the poor patients, with deep gratitude and appreciation. We hope the TRUST will commit to render yeoman's services to the Hospital, as hitherto, in years to come as well.

Dr. Minoos R. Patel
Dean,
GMERS Medical College and General Hospital,
Gotri, Vadodara.
